EXPERIENCE

Web Developer - The Pace Law Firm, Salt Lake City, UT

Full-Stack Web Development | [Deployed Site]
JULY 2021 - NOVEMBER 2021

- Full-Stack website for Law firm built as the sole developer.
- Includes a secondary authentication protected c.r.u.d. app for use as a User Interface by the law firm to edit posts on the site.
- Made use of React Hooks for all state management.
- Implemented SEO which increased web traffic by 300%.
- Used Node.js, express, and Knex.Js to build the RESTful backend.

PROJECTS - SOFTWARE APPLICATIONS (more projects on my website)

Chess API Buildout — *Javascript | React | Redux* | [Deployed Site]

- Independent react project.
- React app made from the Chess.com public api.
- Social media features allow friends to track and share games.
- Utilized Axios requests to incorporate API data into state.
- State hooks used to allow for conditional rendering into component cards.
- Javascript functions written to interpret JSON and find games played by the 2 requested players.

Anywhere Fitness— *Javascript | React | Redux | Context* | [Deployed Site]

- Led team of 4 front end developers, 4 backend developers.
- Personally developed site navigation and forms.
- Utilized context and redux to manage state throughout the site.
- Styled with Styled Components.

EDUCATION

Bloom Institute of Technology, *Full-Stack Web Development*

January 2021- July 2021

1200+ hours coding in a simulated work environment, using current front end and back end technologies to make web apps and databases in team collaborations.

Brigham Young University, 2017 - 2021

- Three years progress towards a degree in computer science.
- One year progress towards a degree in physics.
